SUMMARY

Results-driven Frontend Developer with 2 years of hands-on experience designing and delivering scalable, highperformance web applications using React.js and the MERN stack. Proven track record of managing 50+ REST APIs, building complex portals from scratch, and transforming Figma designs into pixel-perfect, fully responsive interfaces. Deep expertise in state management using Redux Toolkit (RTK Query), modern UI development with Tailwind CSS, and secure authentication flows including JWT. Adept at collaborating in remote and on-site environments, with strong problem-solving skills and a keen eye for detail. Passionate about writing clean, maintainable code and building user-centric applications that deliver exceptional digital experiences. Continuously upskilling in AI-powered development tools (Cursor AI, Claude AI, Gemini) to stay ahead in the rapidly evolving tech landscape..

EDUCATION AND TRAINING

Khushal Khan Khattak University

Sep. 2018 - Feb. 2023

BACHELOR OF COMPUTER SCIENCE

Karak, Pakistan

- Computer Science with focus on Programming (Procedural Object-Oriented), Data Structures Algorithms, Database Systems, Software Engineering, Computer Networks, Digital Logic Design, Computer Graphics, and strong analytical skills through Mathematics, Statistics, and Problem Solving.

The Complete Guide (React Router & Redux)

Aug. 2023 – Nov 2023

Jawan Pakistan Tech – Frontend Development Certification

Online

- Mastered React.js fundamentals, JSX, and component-based architecture.
- Implemented React Hooks (*useState*, *useEffect*, *useContext*) for state and side-effect management.
- Utilized React Router for dynamic navigation and seamless single-page application routing.
- Managed global state using Redux and Redux Toolkit along with REST API integration.
- Gained fundamental knowledge of Next.js for server-side rendering basics.

The Complete Cyber Security Course

Mar. 2024 – Aug. 2024

Jawan Pakistan Tech – Cybersecurity Certification

Online

- Mastered the fundamentals of network security, advanced encryption techniques, and firewall configuration.
- Studied malware and virus protection strategies to secure systems against digital threats.
- Explored anonymous browsing protocols, data privacy principles, and threat intelligence within the dark web.
- Gained hands-on knowledge in ethical hacking fundamentals, including vulnerability assessments.
- Configured secure networks utilizing virtual private networks (VPNs) and Tor routing technologies.

Google Cybersecurity Professional Certificate

Sep. 2024 – Dec. 2024

Coursera (Offered by Google)

Online

- Acquired foundational knowledge in network security concepts and proactive risk management frameworks.
- Developed skills in threat detection methodologies and structured incident response protocols.
- Utilized Linux command-line operations and SQL databases for cybersecurity analysis and data querying.
- Gained hands-on experience using Security Information and Event Management (SIEM) tools for system monitoring.
- Applied Python programming and automation techniques to streamline cybersecurity operations.

SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS

Frameworks & Libraries: Next.js, React.js, Node.js, Express.js

State Management: Redux Toolkit (RTK Query), Context API, Axios

Backend & Database: MongoDB, JWT Authentication, REST APIs

AI & Development Tools: Cursor AI, Claude AI, Google Gemini, Git, GitHub

EXPERIENCE

SAGLINKS

Aug. 2025 – Present

Frontend Developer

Islamabad, PK

- Working as a Associative MERN stack developer managing both frontend and backend development projects.
- Developed core React applications using hooks and component lifecycle.
- Developed production web applications using Next.js.
- Built and deployed a cross-platform mobile app using React Native.
- Developed the Planoujam project using Strapi Headless CMS.
- Integrated Supabase for live tracking of cities and countries.
- Used TypeScript for type safety and better code maintainability.

Codify (Pvt) Limited

Apr. 2025 – Aug. 2025

Frontend Developer

Rawalpindi, PK

- Converted Figma designs into responsive web applications
- Developed cora ecommerce site.
- Integrated 30+ REST APIs
- Implemented authentication and role-based access control
- Integrated Live Locations for weather locations

EziLine Software House

Aug. 2023 - Nov. 2023

Web Developer Intern

Rawalpindi, PK

- Worked on multiple real-world web development projects
- Designed and developed responsive websites and web portals
- Contributed to Healthcare Application dashboard UI design
- Built reusable UI components and improved user experience
